Phd-EEMCS-TheImpactOfDataFusionTechniques

General TU Delft data management questions

1. Is TU Delft the lead institution for this project?

- No - please provide details of the lead institution below and your role in the project

A research institute company based in Delft, Deltares, is leading the project

2. If you leave TU Delft (or are unavailable), who is going to be responsible for the data resulting from this project?

My PhD supervisor Ghada El Serafy (Ghada.ElSerafy@deltares.nl; G.Y.H.ElSerafy-2@tudelft.nl). IT Department of Deltares (servicedesk-ict@deltares.nl)

3. Where will the data (and code, if applicable) be stored and backed-up during the project lifetime?

- Another storage system - please explain below, including provided safety measures

Project Storage folder of Deltares

4. How much data storage will you require during the project lifetime?

- 250 GB - 5 TB

5. What data will be shared in a research data repository?

- Not all data can be publicly shared - please explain below which data and why cannot be publicly shared

Clients are involved in the project, therefore sensitive data will not be shared

6. How much of your data will be shared in a research data repository?

- 100 GB - 1 TB

7. How will you share your research data (and code)?

- All data will be uploaded to the 4TU.Centre for Research Data

not sure at moment

8. Does your research involve human subjects?

- No

9. Will you process any personal data? Tick all that apply (leave all unchecked if you do not process any personal data)

- None of the above apply

TU Delft questions about management of personal research data

1. Please detail what type of personal data you will collect, for what purpose, how you will store and protect that data, and who has access to the data.

Question not answered.

2. Will you be sharing personal data with individuals/organisations outside of the EEA (European Economic Area)?

Question not answered.

3. What is the legal ground for personal data processing?

Question not answered.

4. Will the personal data be shared with others after the end of the research project, and if so, how and for what purpose?

Question not answered.

5. Does the processing of the personal data results in a high risk to the data subjects?

If the processing of the personal data results in a high risk to the data subjects, it is required to perform a Data Protection Impact Assessment (DPIA). In order to determine if there is a high risk for the data subjects, please check if any of the options below that are applicable to the processing of the personal data during your research (check all that apply).

If two or more of the options listed below apply, you will have to [complete the DPIA](#). Please get in touch with the privacy team: privacy-tud@tudelft.nl to receive support with DPIA. If only one of the options listed below applies, your project might need a DPIA. Please get in touch with the privacy team: privacy-tud@tudelft.nl to get advice as to whether DPIA is necessary.

If you have any additional comments, please add them in the box below.

Question not answered.
